----------------------	--------	----------	-----------

In order to optimize immune system health, the following pathways must be evaluated and addressed:

1. Oxidative stress
2. Immune system function
3. Natural inflammatory response
4. Detoxification
5. Hormonal Balance

<p>Vitaline® CoQ10 76183 – 30 chewable wafers, Maple Nut flavor 76186 – 60 chewable wafers, Maple Nut flavor 76196 – 60 chewable wafers, Maple Nut flavor</p> <p>Coenzyme Q10 (CoQ10) (ubiquinone) High purity Natural Form</p>	<p>Take 2-3 wafers daily.</p> <p>Each wafer contains:</p> <p>300 mg</p> <p>Under doctor's supervision, may be used concurrent with conventional therapies</p>	<ul style="list-style-type: none"> • CoQ10 is required for healthy cellular function*¹ • A well-documented antioxidant and free radical scavenger, CoQ10 protects mitochondrial DNA, protein, and lipids from oxidative damage* • Supports healthy cell growth and development*²⁻⁴ • Significantly increases levels of IgG and T4-lymphocytes*³ 	<ol style="list-style-type: none"> 1.
